

Authenticity, values handed down and renewed, in the savoir-faire of the GARAVINI HOME collection, there are inspirations not only of style, there is rather a way of being, a style of seating that we decline in the form of a product.

Because the sofa is a language and we are its translators.

The important consolidated results in the tertiary sector naturally led to the choice to implement a product line that reflected the original stylistic and entrepreneurial spirit of the Company. Starting from the reason for its name, **GARAVINI HOME**. A reasoned and deliberate choice, to use HOME and not SOFA following the founder's surname, Vanni Garavini, precisely to determine the idea that for us, "the sofa is home". A collection of 18 products including sofas, armchairs and poufs with a dynamic, romantic, modern and constantly evolving taste. An intuitive and constant coherence of technical modularity and a highly qualified manufacturing capacity, interact with the interpretation of the new attitudes and new behaviors of living in an increasingly fast, elusive and technologized contemporaneity. Characteristics that are reflected in the communication of the product even before the product itself. From these reflections, we worked on the construction of a collection that is coherently eclectic and of a concrete design nature, therefore capable of being an ally of the concept of time and styles. Our models embrace the most diverse tastes without ever losing their course. Starting from a linear and modern style, passing through a soft maximalism, up to a japandi-oriented register and then turning towards a more nomadic expressive key such as that of boho-chic. All of them, strictly oriented towards the quality of the product performance and the recognisability of the seating of our sofas, a recognisability conceived, designed and built with kindness and determination. Intangible and material values that guide us, day after day, towards increasingly new and reliable interpretations of our idea of aesthetic, sensorial and functional comfort.

GARAVINI HOME - SOFA LANGUAGE

Autenticità, valori tramandati e rinnovati, nel savoir-faire della collezione firmata GARAVINI HOME ci sono ispirazioni non solo di stile, c'è piuttosto un modo di essere, uno stile di seduta che decliniamo sotto forma di prodotto.

Perché il divano è un linguaggio e noi, i suoi traduttori.

*Gli importanti risultati consolidati nel settore terziario, hanno condotto naturalmente alla scelta di implementare una linea di prodotto che raccontasse lo spirito stilistico e imprenditoriale originario dell'Azienda. Partendo dal perché del suo nome, **GARAVINI HOME**. Una scelta ragionata e voluta, quella di utilizzare a seguito del cognome del fondatore, Vanni Garavini, HOME e non SOFA, proprio a determinare l'idea che per noi, "il divano, è casa". Una collezione di 18 prodotti tra divani, poltrone e pouf dal gusto dinamico, romantico, moderno e perennemente in evoluzione. Una intuitiva e costante coerenza di componibilità tecnica e una capacità manifatturiera altamente qualificata, interagiscono con la lettura delle nuove attitudini e dei nuovi comportamenti dell'abitare una contemporaneità sempre più veloce, inafferrabile e tecnologizzata. Caratteristiche che si riflettono sulla comunicazione del prodotto ancor prima che sul prodotto stesso. Da queste riflessioni, abbiamo lavorato sulla costruzione di una collezione coerentemente eclettica e di natura progettuale concreta, capace pertanto di essere alleata del concetto di tempo e di stili. I nostri modelli abbracciamo i gusti più diversi senza mai perdere la loro rotta. Partendo da uno stile lineare e moderno, passando attraverso un massimalismo soft, fino ad arrivare ad un registro orientato al japandi, per poi volgere verso una chiave espressiva più nomade come quella del boho-chic. Tutto rigorosamente orientato alla qualità della performance del prodotto e della riconoscibilità di seduta dei nostri divani, una riconoscibilità pensata, progettata e costruita con gentilezza e determinazione. Valori immateriali e materiali che ci guidano, giorno dopo giorno, verso sempre più nuove e affidabili interpretazioni della nostra idea di comfort estetico, sensoriale e funzionale.*

GARAVINI HOME - SOFA LANGUAGE

Authenticité, valeurs transmises et renouvelées, dans le savoir-faire de la collection GARAVINI HOME, il y a des inspirations non seulement de style, il y a plutôt une manière d'être, un style d'assise que l'on décline sous forme de produit. Parce que le canapé est une langue et nous en sommes les traducteurs. Les importants résultats consolidés dans le secteur tertiaire ont naturellement conduit au choix de mettre en œuvre une ligne de produits qui reflète l'esprit stylistique et entrepreneurial original de l'entreprise. À commencer par la raison de son nom, **GARAVINI HOME**. Un choix raisonné et délibéré, d'utiliser HOME et non SOFA d'après le nom du fondateur, Vanni Garavini, précisément pour déterminer l'idée que pour nous, « le canapé, c'est la maison ». Une collection de 18 produits comprenant des canapés, des fauteuils et des poufs au goût dynamique, romantique, moderne et en constante évolution. Une cohérence intuitive et constante de modularité technique et une capacité de fabrication hautement qualifiée, interagissent avec l'interprétation des nouvelles attitudes et des nouveaux comportements de vie dans une contemporanéité de plus en plus rapide, insaisissable et technologisée. Des caractéristiques qui se reflètent dans la communication du produit avant le produit lui-même. A partir de ces réflexions, nous avons travaillé à la construction d'une collection cohérente, éclectique et de nature concrète, donc capable d'être alliée des événements et styles actuels. Nos modèles embrassent les goûts les plus divers sans jamais perdre leur cap. En partant d'un style linéaire et moderne, en passant par un maximalisme doux, jusqu'à un registre orienté au japandi, pour se tourner ensuite vers une touche expressive plus nomade comme celle du boho-chic. Le tout strictement orienté vers la qualité de la performance du produit et la reconnaissabilité de l'assise de nos canapés, une reconnaissabilité conçue et construite avec gentillesse et détermination. Des valeurs immatérielles et matérielles qui nous guident, jour après jour, vers des interprétations de plus en plus nouvelles et fiables de notre idée du confort esthétique, sensoriel et fonctionnel.

INSPIRED, CREATIVE, FUNCTIONAL

GRVN is an emerging line of contemporary sofas. Industrial spin-off of GARAVINI HOME an Italian generative industry specialized in the high prototyping and production of upholstered furniture for some of the most well-known European distribution chains.

Strengthened by the many years of experience of the GARAVINI HOME Group, GRVN can count on a highly methodologized supply chain. Garavini Vanni, hence the acronym GRVN, has been able to enhance and circularly optimize all production processes: from integrated prototyping, to extensive procurement, up to widespread production and oriented distribution, landing on sales channels with a dedicated approach to the different types of B2B Customers.

The philosophy of GRVN has its roots in the idea of living in an increasingly conscious way, happily aware of being a set of contradictions in a world with a high speed of change. The constant analysis of new behaviors and new habits of living spaces is an active part of our "stylistic blend". To focus on shared well-being, we believe we should move towards new forms of "product optimism", raising the Customer's awareness in a depth knowledge of the sector in which we operate.

Taking inspiration from the concept of "opposites attract", the models we have designed, represent a balanced mix of sumptuous lines and delicately tailored technical definitions. The materials that make up our design come together in a way that is sometimes unexpected but always convincing. GRVN is ethics and aesthetics as a style statement. Because with our "optimistic products", we wish to communicate the importance of surrounding ourselves and living with objects that tell the beauty of each phase that determined their birth.

GRVN
WE DESIGN, WE CREATE, YOU ENJOY
AND NOW, "RELAX & SIT IT EASY..."

INSPIRED, CREATIVE, FUNCTIONAL

GRVN è una linea emergente di divani contemporanei. Spin-off industriale di GARAVINI HOME, Industria italiana di tipo generativo, specializzata nell'alta prototipazione e produzione di mobili imbottiti per alcune tra le più note catene di distribuzione europee.

Forte della pluriennale esperienza del Gruppo GARAVINI HOME, GRVN può contare su una supply chain altamente metodologizzata.

Garavini Vanni, da qui l'acronimo GRVN, è stato in grado di valorizzare e ottimizzare circolarmente tutti i processi produttivi: dalla prototipazione integrata, all'approvvigionamento estensivo, fino alla produzione diffusa e ad una distribuzione orientata, atterrando sui canali di vendita con un approccio dedicato alle diverse tipologie di Cliente B2B.

La filosofia di Marchio GRVN, affonda le sue radici nell'idea di vivere in modo sempre più consapevole, felicemente consci di essere un insieme di contraddizioni in un mondo ad alta velocità di cambiamento.

L'analisi costante dei nuovi comportamenti e delle nuove abitudini del vivere gli spazi, è parte attiva del nostro "blend stilistico".

Per puntare sul benessere condiviso, crediamo ci si dovrebbe orientare verso nuove forme di "ottimismo del prodotto", sensibilizzando il Cliente all'approfondimento e alla conoscenza del settore nel quale operiamo.

Traendo ispirazione dal concetto "gli opposti si attraggono", la palette di modelli che abbiamo disegnato, rappresenta un mix equilibrato di linee sfarzose razionalizzate e definizioni tecniche delicatamente sartoriali.

I materiali di cui si compone il nostro design, si uniscono in modo alle volte inaspettato ma sempre e comunque convincente.

GRVN è etica ed estetica come dichiarazione di stile.

Perché con i nostri "prodotti ottimisti", desideriamo comunicare l'importanza di circondarsi e di convivere con oggetti che raccontino la bellezza di ogni fase che ha determinato la loro nascita.

GRVN
WE DESIGN, WE CREATE, YOU ENJOY
AND NOW, "RELAX & SIT IT EASY..."

INSPIRED, CREATIVE, FUNCTIONAL

GRVN est une ligne émergente de canapés contemporains. Spin-off industriel de GARAVINI HOME, une industrie générative italienne, spécialisée dans le prototypage élevé et la production de meubles rembourrés pour certaines des chaînes de distribution européennes les plus connues.

Fort des nombreuses années d'expérience du Groupe GARAVINI HOME, GRVN peut compter sur une supply chain très méthodologisée.

Garavini Vanni, d'où l'acronyme GRVN, a su valoriser et optimiser de manière circulaire tous les processus de production : du prototypage intégré, à l'approvisionnement extensif, jusqu'à la production généralisée et la distribution orientée, en passant par les canaux de vente avec une approche dédiée aux différents types de Clients B2B. La philosophie du Brando GRVN trouve ses racines dans l'idée de vivre de manière de plus en plus consciente, heureusement conscient d'être un ensemble de contradictions dans un monde en évolution rapide.

L'analyse constante des nouveaux comportements et des nouvelles habitudes des espaces de vie participe activement à notre « mélange stylistique ».

Pour mettre l'accent sur le bien-être partagé, nous pensons qu'il faut aller vers de nouvelles formes d'« optimisme produit », sensibilisant le Client à une connaissance approfondie du secteur dans lequel nous opérons.

S'inspirant du concept « les contraires s'attirent », la palette de motifs que nous avons conçue représente un mélange équilibré de lignes somptueuses épurées et de définitions techniques délicatement adaptées.

Les matériaux qui composent notre design s'assemblent de manière parfois inattendue mais toujours convaincante.

GRVN est l'éthique et l'esthétique comme déclaration de style.

Car avec nos « produits optimistes », nous souhaitons communiquer l'importance de s'entourer et de vivre avec des objets qui racontent la beauté de chaque phase qui a déterminé leur naissance.

GRVN

LIFESTYLE . 404

PLEASE NOTE
In case of compositions, for Model LIFESTYLE, in the central part of the union of the two elements (for example 3 seater on the left side + central element + 3 seater on the right side, and/or 3 seater on the side + chaise longue), there will be a single foot that will connect and support the two elements.

NOTA BENE
Nel caso di composizioni, nella parte centrale dell'unione dei due elementi (ad esempio 3 posti laterale SX + centrale medio + 3 posti laterale DX, COME IN FOTO e/o 3 posti laterale SX + chaise longue DX), verrà inserito/montato un unico piede che collegherà e supporterà i due elementi.
