WHAT TO DO

- Vacuum regularly with a soft brush, in the direction of the pile.
- Thanks to FibreGuard, liquids stay on the surface: blot straight away with an absorbent cloth.
- For more stubborn stains use a cloth dampened with lukewarm water, without rubbing.
- Don't use bleach or solvents: over time they reduce the effectiveness of the FibreGuard treatment.

Always follow these instructions: we cannot accept responsibility for problems caused by washing methods or products other than those indicated.

Your sofa will thank you.
