WHAT TO DO

- Vacuum regularly with a soft brush to keep the chenille pile clean and full.
- Thanks to the water-repellent treatment, liquids stay on the surface: blot straight away with an absorbent cloth.
- Brush gently, always in the same direction, and avoid rubbing.
- If needed, wash the cover at 30° on a gentle cycle, or dry clean (P).

Always follow these instructions: we cannot accept responsibility for problems caused by washing methods or products other than those indicated.

Your sofa will thank you.
