WHAT TO DO

- Professional dry cleaning (P) is recommended, at least for the first wash: it keeps the water-repellent treatment intact and prevents shrinking.
- If you later want to wash it at home, use a gentle 30° cycle with a mild detergent.
- Thanks to the water-repellent treatment, liquids stay on the surface: blot straight away with an absorbent cloth.
- Don't use bleach or the tumble dryer; iron on a low heat if needed.

Always follow these instructions: we cannot accept responsibility for problems caused by washing methods or products other than those indicated.

Your sofa will thank you.
