WHAT TO DO

- Wash the cover at 30° on a gentle cycle, inside out, to protect the pile and the treatment.
- You can tumble dry on a gentle cycle; take the cover out while it is still slightly damp.
- If you spill something, blot straight away: the water-repellent treatment repels liquids.
- Iron only inside out, without steam directly on the surface.

Always follow these instructions: we cannot accept responsibility for problems caused by washing methods or products other than those indicated.

Your sofa will thank you.
