WHAT TO DO

- Vacuum regularly with a soft brush to remove dust from the weave.
- Thanks to the water-repellent treatment, liquids stay on the surface: blot straight away with an absorbent cloth.
- For more stubborn stains use a cloth dampened with lukewarm water, without rubbing.
- If needed, wash the cover at 30° on a gentle cycle without spinning, or dry clean (P).

Always follow these instructions: we cannot accept responsibility for problems caused by washing methods or products other than those indicated.
