WHAT TO DO

- Wash the cover inside out at 30° or 60° on a gentle cycle, in a protective laundry bag and with the spin at its lowest.
- You can tumble dry on a low heat; take the cover out while it is still slightly damp and put it straight back on the sofa.
- If you spill something, blot it straight away with a dry cloth: thanks to FibreGuard the liquid stays on the surface.
- For stubborn stains use lukewarm water and mild soap, then rinse and leave to air dry.
- Don't use bleach, solvents or harsh detergents: they damage the fibres and the stain-resistant treatment.

Always follow these instructions: we cannot accept responsibility for problems caused by washing methods or products other than those indicated.

Your sofa will thank you.
