WHAT TO DO

- Vacuum regularly with a soft brush to keep the weave clean and crisp.
- Thanks to the water-repellent treatment, liquids stay on the surface: blot straight away with an absorbent cloth.
- If needed, wash the cover at 40° on a gentle cycle; do not dry clean.
- If you need to iron it, always iron inside out at a medium temperature.

> Always follow these instructions: we cannot accept responsibility for problems caused by washing methods or products other than those indicated.
